

360 ENTERPRISES

ABOUT COMPANY

A group of qualified engineers, project managers and construction team for 360 Enterprises in Pakistan. We offer a variety of services to clients in the private, public, and commercial sectors.

Everything is handled by our staff, from ideation to creation. We adhere to moral principles and apply them to our ideas. You receive a team of experts that are dedicated to maximising the value of your project. Our project specialists are quick and creative, customising design and construction solutions to our client's best interests.

Company Vision

Vision

To continually execute projects that offer outstanding customer satisfaction, becoming the top turnkey solution provider. We want to consistently provide our clients with outstanding value and innovative construction solutions.

360 Enterprises aims to always be the first choice for their recognized excellence, quality, performance, and reliability in all kinds of constructions by adopting modern trends.

Company Mission

Mission

We aim to handle each job with the highest level of workmanship possible while delivering the best possible service in the turnkey and project management solutions. We want to continuously adopt creativity in processes and materials to boost output and efficiency.

To hire individuals that are varied, creative, and results-oriented and who are driven to provide quality in order to continuously increase our team's expertise

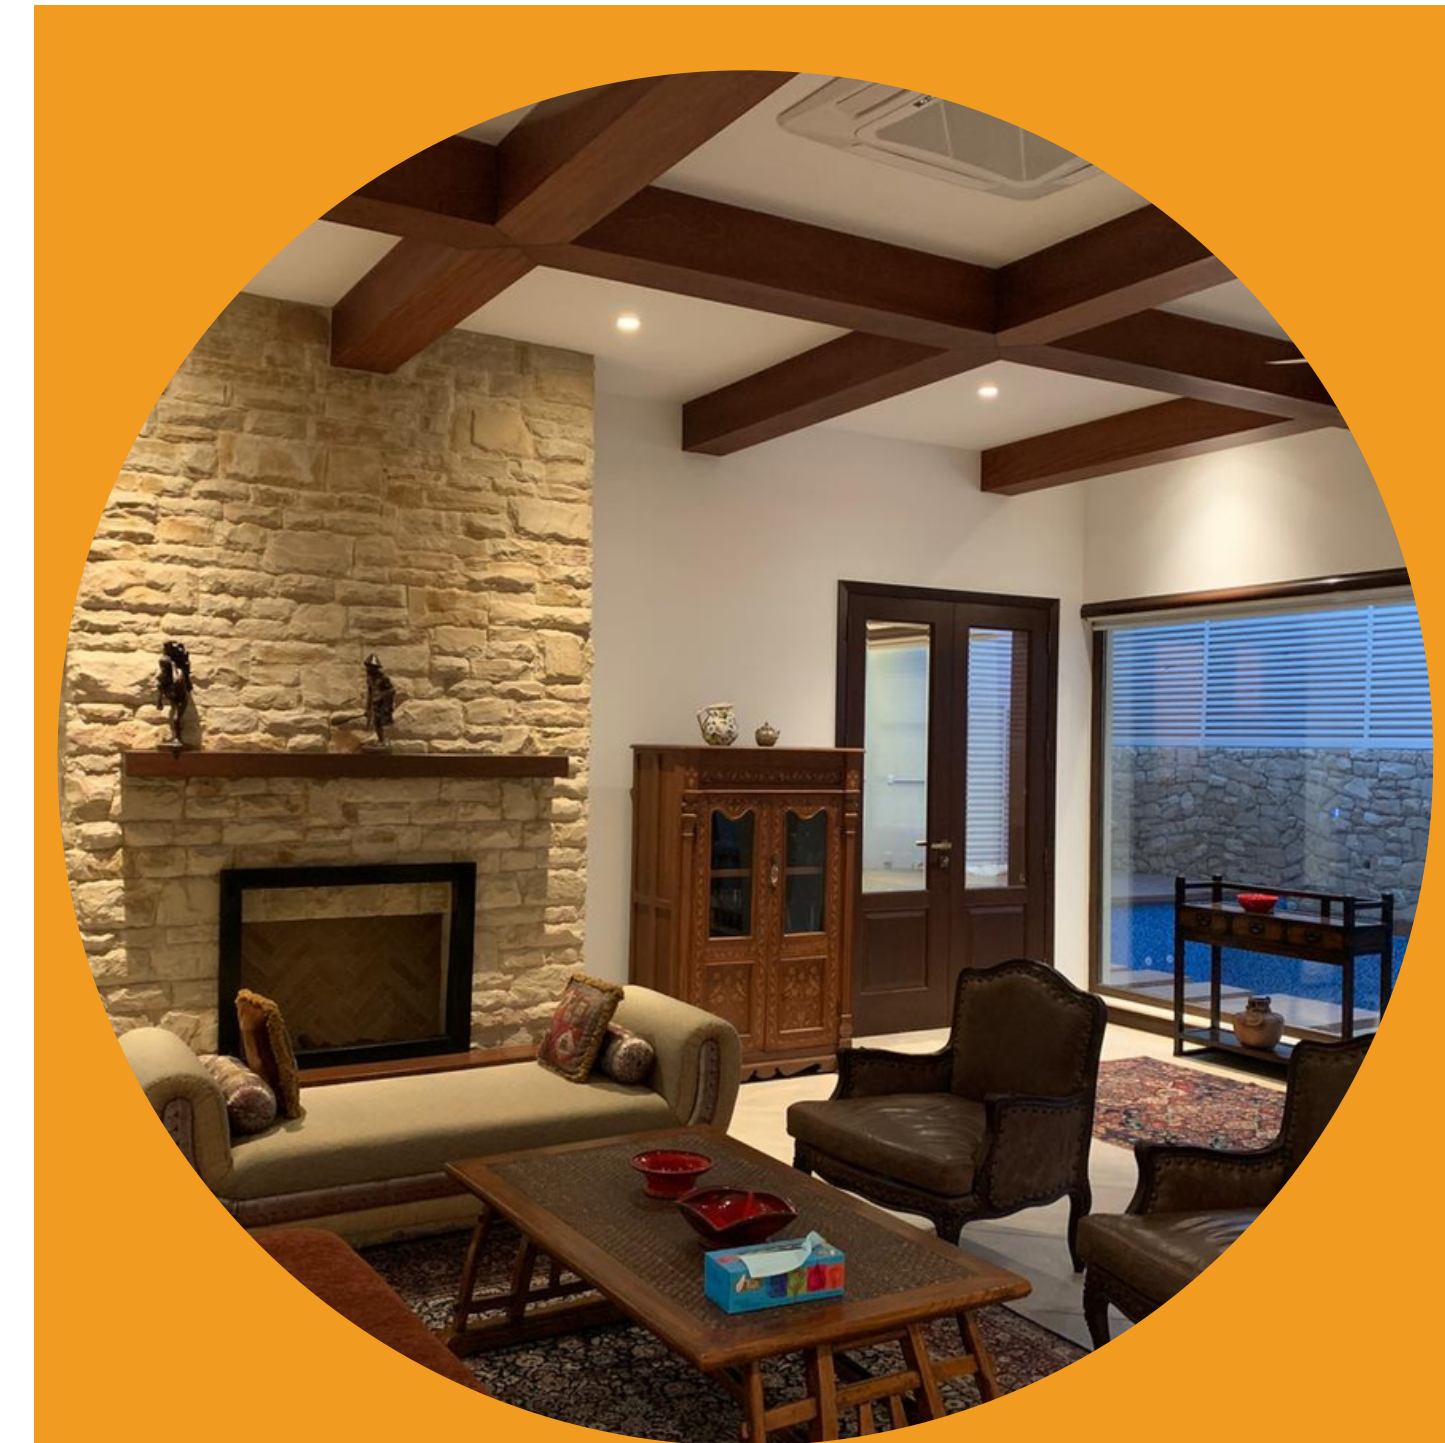

What We Do?

The success of a project and the satisfaction of the client depend on conceptual design sketches. Your design project drawing is combined with the client's feedback to create one master plan.

360 Enterprises is the place to go for general building and outdoor living, from an outside covered space to a full house remodel. Everything from siding to new kitchens and expansions, our team think smart and reconfigures homes to fit your vision using their knowledge and creativity.

Using our structural experts for your project you will ensure the durability and safety of your project.

Home/Office Renovation

Do you own a home that is outdated, damaged, or in need of repair but that you believe has a lot of promise for improvement?

We are experts at flawlessly repairing and renovating such houses. Its layout and design are skilfully updated by our staff, who turn it into a stylish and contemporary home. At the same time, we reorganise these residences so that you can utilise their space more effectively and more economically.

Project Management

Effective construction management abilities are necessary to finish construction projects on schedule, within budget, and to the desired level of quality because they require a lot of time and money. Staying cost-effective and competitive in the building and construction sector requires businesses to have key competencies in managing risk, coordinating job sites, and controlling costs.

Our group of project managers is ideally suited to provide the oversight necessary to complete your projects on schedule and to your desired level of quality, scope, and functionality. Our professionals are aware of the difficulties faced by owners, builders, engineers, and architects during the construction process.
